The section text is the analysis of researches and publications for the last 5-7 years including the foreign ones (not less than 40%) in which solution of the problem, considered by the author, has been initiated; still unsolved aspects of the problem to which the paper is dedicated are identified.

Statement of the problem and its solution. The section text is the formulation of the paper objectives (task setting), presentation of the basic research material with full justification of the scientific results.

Tables are presented in the portrait orientation; they should have a thematic name, to be centred. The table length should not exceed one page. For large tables the font 8-9 pt is allowed. The table caption is given above the table, in the middle of the text. Before the title and after the table a blank line is left. The example of the table1.

Table 1 – Density functions of individual distributions

№	Distribution	Behaviour of function	Error,%
1.	Pareto	x^{-N}	25–30

Figures (diagrams, photos, etc.) are submitted in black-and-white image after the reference in the text. The captions to the picture are not included, in the middle of the text. Before the figure and after its title a blank line is left. The example of the figure 1.

Figure 1 – Dependence of the coordinate Z of the elementary volume of gas on time τ

Equations should be typed in equation editor Microsoft Equation, mathematical style, formula size 10 pt. Do not place them in the tables. The equations longer than 8 cm are divided into blocks (in some cases to fit the page width – 17 cm). The equation numbers are given in parentheses. Before and after the equation a blank line is left

$$A_2\alpha + B_2\beta = C, \qquad (1)$$
